By Military Telegraph, dated Yuma, July 15th: Quite a shower of rain fell here yesterday. The weather is intensely warm. The Colorado river has risen in the past twenty-four hours about eight inches, caused by heavy storms above. A Prescott dispatch to-day says:
"The weather for the past week has

been rainy daily, and there are no signs of abatement." A male child was born here a day or two since which was a most singular monstrosity. The head, from the low-

er jaw up, was that of a calf, with in-describable appendages. It lived one day. Dr. De Courcey the attending physician, and Dr. Loring, Medical Director of Fort Yuma, examined this and are satisfied as to the cause.

Independence Items.

[From the Inyo Independent 17th] A long train of emigrants wagons are now passing southward through the valley, being coastward bound from Washington territory. It was understood in Nevada that they were bound for Bishop, and we opine that they will wish they had located at

that point. Sheriff J. J. Moore, started via Southern route with two prisoners in charge. Wilson Velaria, insane, and George Wellington, sentenced to one year's imprisoment in the State Pri-

son for horse stealing. Wm. Arcularious, while engaged last week in operating a mowing ma-chine, above Camp Independence had aftinger so mutilated that amputation was necessary.

Thursday last Mr. A. G. Cook residing near Camp Independence, had a narrow escape from death by the explosion of an overloaded shot-gun. A part of his left hand was causied away the wrist joint and a portion of the fore-arm destroyed, necessitating amputation below the elbow. Dr. White performed the operation, and the patient is reported as doing well.

A CASE has just floated to the surface in San Francisco which goes far to prove that the world, or at least the world's poor people, are governed too much. A lady owed twenty cents taxes. She did not pay in time, and twenty-five cents was added; then six cents interest was footed up, and suit commenced by the State of California. The complaint covered ten printed pages and had attached a number of summonses and other formidable looking legal documents. Appended to the complaint were the names of three prominent lawyers and still more prominent politicians - JAMES D. FAY, a Republican, CREED HAY-MOND, an Independent, and WILLIAM WIRT PENDEGAST, a Democrat. The costs of suit were ten dollars. We regret to say that the law enables great lawyers to thus oppress a poor woman and we regret still more that great lawyers can be found who are willing to enforce the oppressive law.

### The City's Funds.

EDITOR HERALD: At the last meeting of our City Fathers, Councilman Workman stated that the City Treasurer refused to turn over the city funds to Tempie & Workman. Can you give any information as to the cause for this act?

TAXPAYER. Los Angeles, July 20, 1875.

In accordance with a notice that proposals would be received from the different banks of the city for the deposit of the city money, TEMPLE & WORKMAN submitted a proposal to take charge of the funds, paying therefor interest at the rate of thirteen per cent. per annum. This was the highest bid, and the Council accepted it as offering the best terms for the city. It now appears that the City Treasurer ests. refuses to comply with the order of the Council to deposit the funds in his hands belonging to the city in the bank of Messrs. TEMPLE & WORK-MAN. On what grounds he bases his refusal we are not informed. Until we learn to the contrary we shall take it for granted that Messrs. TEMPLE & WORKMAN stand ready to fulfil their contract with the city. As the city is losing considerable in the way of interest while the money is withheld from the bank, it is a matter which requires the prompt attention of the Council. The Council and the taxpayers have a right to know why the money is not deposited with the bank offering the highest rate of interest, as well as to know where and how it is deposited. This is all the information we are able to give "Taxpayer" at this time. Tiend best all

### A Fatal Mistake.

Governor PACHECO was given the second place on the Independent ticket with the expectation that he would strengthen that weak and flimsy combination. It was a serious mistake. The argument that Mr. PACHECO did not permit his name to go before the Republican State Convention has no weight, because it is well known that he was a candidate and that he wrote letters to his friends in different parts of the State assuring them that his nomination by that Convention was a conceded fact. He only withdrew from the contest when he was convinced that the superior management of Gorham had drawn away his strength and that his defeat was certain. The claim that the sore-headed Republican will poll native California votes in the role of the revengeful Independent candidate for Lieutenant-Governor, is an insult to the intelligence of the Spanish population. They would have supported Mr. PA-CHECO as a Republican, but will not vote for him as an Independent because they know he is not found in that party on account of his belief in the purity of that party's principles.

### Fact and Fiction.

The agricultural editor of the Evening Express should try his hand at making a living on the sheep range of Santa Monica and San Vicente rancho without irrigation. We opine he to-day. vegetable matter sprout, mature and fructify on land where the pick, spade and crowbar will ring for forty feet under the surface will prove disastrous. This we know by sad experience, and the man who misleads his fellow into such an idea is no friend to the county, city or State; in fact, it is a gross injustice to humanity. The fact that corn can be raised on the Cienega, which, in English, is equivalent to swamp, where the water is within six feet of the surface, is no criterion for what the mesa lands will be criterion fo criterion for what the mesa lands will do without water. Those who try them, and see their crop wilt before the August and September sun, find that not any amount of deep plowing or continuous stirring of the soil will bring to the reach of the plant sufficient moisture to maintain the vital energy of the vegetable kingdom. ### That Santa Monica Garden.

Parties who attended the first day's sale of Santa Monica lots were struck with the beauty of a fine landscape garden, laid out in front of, or rather between the hotel and the bluff. There were young pine and cedar trees and beds of onions, all fresh and green and apparently to the manor born. The walks were bordered with sea shells, and everything was lovely. These young trees and onions were pointed out to expectant lot-buyers as evidence of what that sheep pasture might be made to produce. The joke about this garden has just leaked out. We have it on good authority that the entire garden was the work of the night before the sale. The pine trees were in pots planted below the surface, and the onions were transplanted from a Los Angeles garden. The shells are the only part of the exhibition that has not faded and withered.

Destructive Fires and Loss of Life. CINCINNATI, July 20th .- A fire occured at an early hour this morning, originating in the photographic establishment of W. H. Donaldson, 146 West 4th street. Ignitable and oily material aided the flames, and peculiar situation of the building prevented the firemen from checking them, Donaldson's stock was completely destroyed. Also the printing establishment of Black & Co., the office of the Israelite Newspaper Company, and two photograph establishments. The firemen brave herocially exerted themselves to keep the fire under, and just as the flames were under control the walls of the burning building fell with a crash, burying the Chief, Me-Grew, and seven firemen in the ruins. An explosion was what caused the walls to fall. E.S. Spencer and Henry Schuyler fell from the top of the five story ladder, and were only slightly injured. James McCormick was first rescued from the debris. He was badly burned. Dennis. Crovin and John Hopkin, taken out badly hurt. Fleming and George Church were rescued with less serious injuries than Chief McGrew. He still remained. Soon after a cry of help was heard from him, and after almost superhuman efforts, he was rescued with his thigh burned and otherwise injured. command sent out to treat with the Indians for the Black Hills from the Red Cloud agency, under date July 20th to the effect that the treaty has been seriously abstructed by an unfortunate collision between a party of Indians and the soldiers. Great excitement prevails at the agencies. The affair as derived from Indian sources is as follows: Several weeks ago a horse stealing expedition called a war party of about 200 was organized by the wildest young bucks of the Red Cloud and Spotted Tail agencies to the Poncas. They had fight with the Poncas and stole some horses, when they encountered a party of forty soldiers from Fort Randall, at Little White river crossing 132 miles from the Spotted Tail agency. The Indians were asked for a pass showing their right to leave their reservation which they could not produce, and they were informed the troops had orders to shoot any Indians off their reservation without permission. The Indians said, "we are agency men and don't want any trouble with white men," and seeing a piece of timber they ran for it and the soldiers opened fire killing two and wounding three. A brother of Tall Lance, who was one of the delegation to Washington recently, was among the killed. Tall Lance exhibits much grief over his brother's death, Spotmandant that there could be no treaty until the murder of his men could be explained. Collecting Costs with Shot-Guns.

Yesterday afternoon Mr. Juan Seoulveda, residing one mile from Wilmington, was brought into town by a Constable, almost perforated with buckshot. Several days ago Sepulveda lost three or four horses, which he found in the possession of a man named Morrison, held as estrays for damage committed. The case was tried before J. J. Martin, Justice of the Peace at Compton, and judgment rendered against Sepulveda for \$25 27. It would seem that four horses should settle this amount, but, for some reason, execution was issued several days Mr. Abe Rothschild of San Diego is ago and put in the hands of M. W. Orr. In this half-butchered condition he was borne off in triumph by the Constable and brought to Los Angeles, the guardian of the peace chuckling immensey that he had got the man and the heep, too. By the time a crowd of indignant citizens was gathered, Mr. Constable Orr didn't think it quite such a nice little legal pleasantry, and when he attempted to put shackles on the wounded man, he was, perhaps, nearer than he suspected to having a big head put on his legal shoulders. The shackling was reluctantly abandoned by the gentleman who represented the majesty of the law at Compton, and Sepulveda was taken where his wounds could be dressed. The Constable and his victim agree substantially in their statements, except that the latter charges the former with knocking his wife down. As the case now stands, the Constable was almost guilty of murder, and it is very questionable whether this system of collecting costs is justifiable. We

His friends are legion. for the purpose of making the award to the firm making the best display of man presided. Of course everybody knew that the firm of Page & Gravel, the enterprising carriage makers, would get it, and no surprise was manifested when Judge Eastman, after a neat speech, handed Mr. Page an elegant silver medal. On receiving it, Mr. Page made a feeling response, thanking the committee for their ap-preciation of the efforts of the firm to build up a mechanical business of metropolitan proportions in Los Angeles. The medal is an elegant and massive silver gem, exhibiting the skill of Fisher & Thatcher. On the obverse side it is inscribed, "Awarded to Page & Gravel by the Executive Committee, July 4th, 1875, for meritorious and appropriate display of their business." On the reverse, "Industry and perseverance surmount all obsta-Charley White, Southern Pacific cles." It is a fitting testimonial to the enterprising firm, and we hope they will ever maintain by skill and probity the high position in business which they have attained.

It was a four-in-hand, and carried some notable men-Gen. John A. Logan, Senator Jones, H. H. Ho-nore, Fred. Grant's father-in-law, and Dr. Fowler of Chicago." That's the reason Senator Jones didn't come to Santa Monica. We could have shown him elegant six-in-hand equipages.

A mammoth mortgage was filed in the County Recorder's office yesterday. It is a trust deed to Mr. D. O. Mills and Lloyd Tevis from the Southern Pacific Railroad Company, conveying to the trustees eleven hundred miles of road and rolling stock to secure mortgage bonds on the road to be issued to the extent of \$46,000,000. This is the most formidable instrument ever filed for record in this city.

Hot Weather-Dull at the Capital-Mt. Vernon-Fort Foot-A Trip up the Potomac.

EDITOR HERALD: If you have the remotest desire to understand what hot weather is, come without delay to our city, where the thermometer (Farenheit) stands defiantly at 110° in the shade and keeps threatening to go up a few steps further if rain does not fall soon. Alas! how can the rain come, if there is none in the moon, which persistently hangs with its point down, consequently all the rain or water is out! I wonder why the Dutch made such an omen, so that rain or no rain was entirely optional with that very changeable satellite. All the fashionable or distingue have long ago sought the seaside or the cool umbrageous Springs among the mountains to vegetate and recuperate for next Winter, which is expected to be unusually gay, a new Congress having to be inaugurated, and consequently new honors to be won and conquests gained.

A TRIP ON THE POTOMAC. We took a trip a few miles on the lovely Potomac, where the scenery is acknowledged to be very fine, with glimpses of nooks, occasionally, that would set a poet or an artist wild with their magic beauty. Passing old Fort Washington, which, you will remember, is built of gray rock or granite and dates far back to the beginning of the present century in age, we came in view directly of Mount Vernonthe "Mecca" of America. Our boat, however, did not land, but rounded the point to return up stream. When within eight miles of this city, she landed at Fort Foote, on the Maryland side, which was one of the many forts built during the war of the Rebellion. and which is still garrisoned with U. ONE OF THE FIRST FAMILIES. We were entertained most cordially by one of the oldest familes of Maryland, a member of which has a fine homestead near the "Fort," and who owns the land where it is situated. It does one good to still find the same gentle, warm hospitality that ever haracterized the true South, as it was 'in the days of yore;" and notwithstanding that poverty and ruin reigns where once wealth, elegance and refinement predominated, the same dear old warm hearts, with their charming, unselfish welcomes, are ever ready, though the pleasant smiles are often saddened by the glistening tear. If our city was less dull, we would have more to write, but in our next we will get up a more readable article, provided we have rain!

The picture of "The Interested Spectator" attracts general attention in Fisher & Thatcher's store window. The observant attitude of the man and the hoodlum smoking his cigar are amusing studies.

Dr. T. C. Gale, an experienced physician of Mount Vernon, Indiana, is in the city. If the Doctor desires a genial climate, a good business pros-pect and genteel society, he will settle here and become one of us.

### INDUSTRIAL EXHIBITION UNDER THE AUSPICES OF THE

MECHANICS' INSTITUTE

Will be opened in San Francisco at 11 o'clock A. M. on Tuesday, the 17th day of August next, continuing open at least one month, in the immense Pavilion specially erected for the purpose on Eighth street, running from Market to Mission, having a floor area of 200,000 square feet, and lighted by over 5,000 gas-jets supplemented by improved reflectors.

Manufacturers, mechanics, inventors and others desiring to exhibit, will please send in their applications for space without delay, to Mr. J. H. Culver, Secretary, or to Mr. J. H. Gilmore, Supt., both at 27 Post street, who will answer all inquiries.

No charge is made for space and steam-power and a reasonable amount of water will be provided free for machinery desired to be exhibited in actual operation.

A liberal premium list, consisting of gold medals, diplomas, and certificates of merit, will be awarded.

Articles intended for competition must be entered and placed on exhibition on or before Saturday, August 21st.

All the lines of street cars pass in close contiguity to the Pavilion, running extra cars during the Exhibition.

During the Fair of 1874. 700,000 visitors attended the Exhibition; and, as heretofore, the Exhibition will be complete in all its details.

WEDNESDAY,......JULY 21, 1875. 

HIT HIM AGAIN. Is it a Crime to be a German?

To J. M. Edmunds, Esq., Chairman of the National Republican Executive Committee, Washington, D. C.: DEAR SIR-Having been a Republican ever since the present Republican party was formed and having never voted any other Federal ticket than the Republican, I claim the right to call your attention to a matter which lies within the control of your committee, and which threatens to injure the Republican party by alienating from it a large mass of its present sup-

I have been so unfortunate as to dislease the central and chief organ of he Republican party—the Washing-on National Republican—by some letters in the New York Herald, con-taining the results of investigations into the political and industrial condition of several Southern States; and four organ accordingly informs its readers, in an editoral article, which has just come into my hands, that I ought not to be believed-not because I have misstated facts or am an incapable or inaccurate observer-but on the ground that I am a "Dutch Jew," Dutch standing here, of course, for German. I have noticed

that ignorant Americans commonly call the Germans "Dutch." Now, If I were, in the organ's elerant phrase, a "Dutch Jew." I don't ee what that has to do with the eredulity of my statements. I am, in fact, a German, and am proud of my descent from a people who have been the faithful supporters of liberty on two continents. I am not a Jew, but if I were, I should not be ashamed of it; for the Jews in this country are an ntelligent, industrious and peaceable

body of citizens. But the organ thinks differently. Speaking in the name of the Republican Administration, whose mouthpiece it is, it has the folly to assert that if a man is a German by blood he is therefore not to be believed; if he is a Jew by religion he is therefore unworthy of confidence.

Is this really Republican doctrine? If not, is it prudent in you to allow your organ to offer such a wanton inenlt to a very large number of citizens, Germans and Jews, who mostly vote the Republican ticket, and whose votes next year will be absolutely indispensable to the success of the party? You ought to muzzle your dog, the National Republican. A recent and hotorious indigestion, and he is snapping at the heels of his friends. If you let him go on he will presently do the

patty a damage. We are to have important elections this Fall; and next year there will be protecting laws of California, enacted 1873-74. sult in the faces of several hundred thousand German and Jewish voters, and this in the name of the Republican party, and as presumably an of-ficial declaration of the sentiments of the party chiefs? Do you really want to drive these voters away from the Republican ranks? or do you imagine they have no self-respect or resentment? And have you no fear that the Democrats will use such declarations, made in your chief organ, against the

party next year? Or even in Ohio and Pennsylvania this year? The Republican party should have a respectable organ in Washington. If you cannot get rid of the National Republican you ought at least to change its name. You might call it the National Idiot. I make you the suggestion as a sincere and earnest Republican. Yours truly,

CHARLES NORDHOFF. Atlanta, Ga., June 28, 1875.

Santa Barbara Items.

[From the Index July 17th inst. ] Santa Barbara is the most delightful sea-side resort on the face of the globe. We say this after a full examination of the claims of the famous sea-side resorts of this continent and of Europe, and we are supported in our assertion by the opinion of those who have personally visited the regions most celebrated for their qualities of climate, surf and scenery.

The first run of ore from these mines in the new furnace proves that they other particulars unsuited to the pe-culiarly rich ore of these mines. Work is going on upon a furnace of a differentcharacter which it is expected will be much better adapted to the treatment of these ores. The construction of the furnace already tried will be materially changed. Every well known mine of cinnibar has had to undergo many experiments before the best mode of treatment was discovered. They all differ in character and require a different treatment. The development of the Los Prietos mines goes right-along, and every preparation is making for thorough explora-tion and for the treatment of the ores in the most success ul manner that mind, money, experience and Jabor can bring to the work. The Los Prietos mines, of Santa Barbara County, now take their place in the catalogue of the great quicksilver mines of the
